After working together for some 20 years, Norton Consultants Pty Ltd and Prosource Pty Ltd, two Australian-based companies well known and respected within petroleum industry circles internationally, have now established a Singapore-based joint venture:

Norton Consultants Prosource Asia Pte Ltd (NCPA)

As a company we are dedicated to providing our clients and the general public with the safest, most efficient, and cost effective and technologically advanced plant and equipment available.

Our people are the key to our success and our team of professional and experienced engineers has the ability to analyse our clients' needs to produce practical solutions delivered on-time and on-budget. Our expertise provides:

- Accurate and practical interpretation of client's concepts and requirements.
- Experience to foresee and overcome potential difficulties.
- Co-ordination of a wide variety of skills in the one place.

With the full support of our parent companies, **NCPA** can offer a wealth of petroleum industry experience in the broad areas of:

- Electrical, mechanical and control systems detailed design
- Pipeline pressure and strength testing
- Aviation hydrant design, pumping and storage systems
- Transmission and marine pipelines
- Oil Terminal design
- Plant Design
- Stress analysis of piping systems, pressure vessels and cracker columns
- Hydrant pipeline leak detection and advanced control systems design
- Pollution control systems for the Petrochemical Industry
- HAZOP and HAZAN
- Total project management, technical documentation, supervision and commissioning

With Australian offices in Melbourne, Victoria, and the Gold Coast, Queensland, we have over 50 years of combined experience in the design and development of award-winning engineering and control systems for petrochemical facilities and have formed close alliances with Shell Aviation Asia-Pacific and UK, Caltex, BP Oil, Air BP, ExxonMobil and Santos to name a few.
